

SPORT DIVER MEDICAL EXAMINATION

Any fee in respect of the medical examination is the responsibility of the person being examined

Diving training must not be undertaken until the candidate has completed a Medical Declaration or had a Medical Examination confirming fitness to dive

NOTES TO THE DIVER

It is necessary for members of the above organisations to complete this form annually on renewal of membership. Exceptional fitness is not essential; both men and women can dive safely providing they are reasonably fit. Sport diving can at times involve heavy physical exertion. Moreover, recreational diving in the UK is carried out in what can occasionally be a cold, dark and hostile environment and it entails responsibility for the safety of other divers. If you have any queries then please contact a medical referee (listed overleaf).

Please read carefully before completing this Self-Declaration Form

Divers answering "No" to all questions below should complete this declaration, hand the original copy to your DO and retain a copy with your Qualification Record Logbook for reference purposes.

Divers answering "Yes" to any question below or are unsure on any area, should not sign the form but must seek advice from a Medical Referee

- From a telephone call enquiry, the Referee may only need to endorse this form on your behalf. You will need to send the form to the Referee in a stamped self-addressed envelope for endorsement by them (no charge is made) and return to you. Hand the original of this form to your Diving Officer and retain a copy with your Qualification Record Logbook for reference purposes.
- The Medical Referee may require to see you for examination (where a fee may be payable) and if you are found fit to dive, they will give you a completed **Certificate of Fitness to Dive** with an expiry date or a statement that further medical assessment is not required. You should attach a copy of the Certificate of Fitness to Dive to this form and hand to your Diving Officer. Ensure you retain the original of the Certificate of Fitness to Dive (you may need to provide copies for future annual declarations) with a copy of this form with your Qualification Record Logbook for reference purposes.

Diver Medical Health Questionnaire

1. Have you suffered at any time from diseases of the heart and circulation including high blood pressure, angina, chest pains and palpitations?
2. Have you at any time had chest or heart surgery?
3. Have you suffered from or had to take medication for asthma?
4. Have you ever had collapsed lung or pneumothorax?
5. Have you ever had any other chest or lung disease?
6. Have you suffered at any time from blackouts, fainting or recurrent dizziness?
7. Have you had regular ear problems in the past ten years?
8. Do you have an ileostomy, colostomy or ever had repair of a hiatus hernia?
9. Have you ever had epilepsy or fits?
